Productivity Inc®

Productivity Nebraska invites you to a

TECHNOLOGY Open House

Wednesday, May 4th, 2016 • 9:00 am to 4:00 pm

Productivity now offers Stratasys additive manufacturing/3D printing capabilities. Visit our show to see the latest in machining technology. This is an opportunity to see live demos on BTM, Citizen Cincom, Durma, FOBA, Haas, Makino, Mighty Viper, Okamoto, Omax and Stratasys machines. There will also be tooling vendors on hand. Come by and visit with our machine tool experts, bring a project to discuss, and have some lunch on us. There will also be a Stratasys seminar (see details below). Please register for the show and seminar by **Friday, April 29th**.

These machine lines on display with live demos happening all day!

BTM Metal Cutting Bandsaws · Citizen Cincom · Durma · FOBA · Haas · Makino · Mighty Viper · Okamoto · Omax · stratasys

Featuring:

stratasys

See close-up sample parts and materials such as:

- End use parts
- Jigs & Fixtures
- Tooling
- Molding and more.

Seminar: **Additive Manufacturing/ 3D Printing Seminar at 10 am - 11:30 am**

Learn how with FDM technology, you can produce jigs, fixtures, tooling and even low-volume production parts in-house in hours or days. Hear how can bring new products to market even while you wait for the final tooling to arrive from the machine shop. And, keep it all in your shop!

FREE Lunch Provided 11:30-1:30pm
