

# WE'RE REDEFINING CLEAN AND GREEN

**Eliminate Water**

**Eliminate Water Conditioning**

**Eliminate Water Chemistry Consumables**

**Eliminate Multiple Wash Chemistries**

**Eliminate Waste Separation**

**Eliminate Waste Disposal**

**Eliminate Hazardous Solvents**

**Eliminate Expensive Solvents**

## SUPERIOR RESULTS FOR THE MOST CHALLENGING PART GEOMETRIES

Expect unparalleled efficiency and performance when you marry the cleaning power and versatility of Kyzen modified alcohol with IFP's airtight, vacuum chamber wash technology. IFP is the top choice for cleaning challenging parts made in oil AND water-based coolant without chemistry change. Automatic solvent distillation, filtration, and oil separation designs combine to assure minuscule solvent consumption while eliminating reoccurring chemistry separation, monitoring, and disposal costs.
