WCE4 4-Flute End Mill

The WCE4 4-Flute End Mill combines the asymmetrical index and variable helix features at an affordable price while ensuring material and application versatility, including demanding operations like full slots and heavy cuts.

WCE5 5-Flute End Mill

The WCE5 5-Flute End Mill combines the unequal index feature with an elevated 38-degree helix feature at an affordable price to be used primarily in carbon steel and stainless-steel shouldering and side milling applications.
