PREDICTABLE results

ROBOFLEX VP **VALUE PACKAGE**

- Comes ready to be floor mounted, or upgrade to be pre-mounted on a moveable platform; allowing the cell to be moved as one unit. The pedestals provide a secure mount for the robot and infeed drawers.
- Our lowest cost system
- Single machine only
- Lathes and mills possible
- Compact footprint
- Simplest to operate

System Options

- FANUC iRvision 2D part locating system
- Re-grip/flip station
- Part inspection/exit chute
- Pneumatic vertical sliding shutter
- High-speed servo door actuator
- Upgrade to quick-change dual gripper assembly
- Additional machine integration
- Schunk KSP 160 Plus vise

Featuring

FANUC LR Mate 200iD
Versatile Intelligent Mini Robot

- A compact 6-axis mini robot with the approximate size and reach of a human arm.
- Slim arm minimizes interference to peripheral devices and allows operation in narrow spaces.
- The most advanced servo technology and highly rigid arm enable smooth motion without vibration in high-speed operations.
- Latest intelligent functions with iRvision (integrated vision) and force sensor are available.
- Lightest mechanical unit in its class enables easy system integration and installation flexibility with multiple mounting methods.
- Enhanced wrist load capacity allows for greater efficiency and the ability to handle multiple workpieces.
